

About

Elabscience specializes in immunodiagnostic technology for life science community. We have complete platform for R&D and manufacture. At the same time, we have in house QC for each ELISA kit, endeavoring to keep your experiment results more consistent and precise. Most of Elabscience products have been used by researchers all around the world. An increasing number of citations are available in scientific publications.

Elabscience major products cover Proteins, Antibodies, ELISA Kits, CLIA Kits, Labeling Kits, Biochemical Kits and Other Reagents.

Elabscience also offers custom services including Protein Service, Antibody Service, Peptide Service, Gene Synthesis Service and Whole Research Project Solutions.

Our Advantages

- Rich range of products
- Competitive price
- Superior quality with high stability
- Strict quality control standards
- Detailed product information
- Professional and efficient technical support
- Fast delivery and reliable supply chain

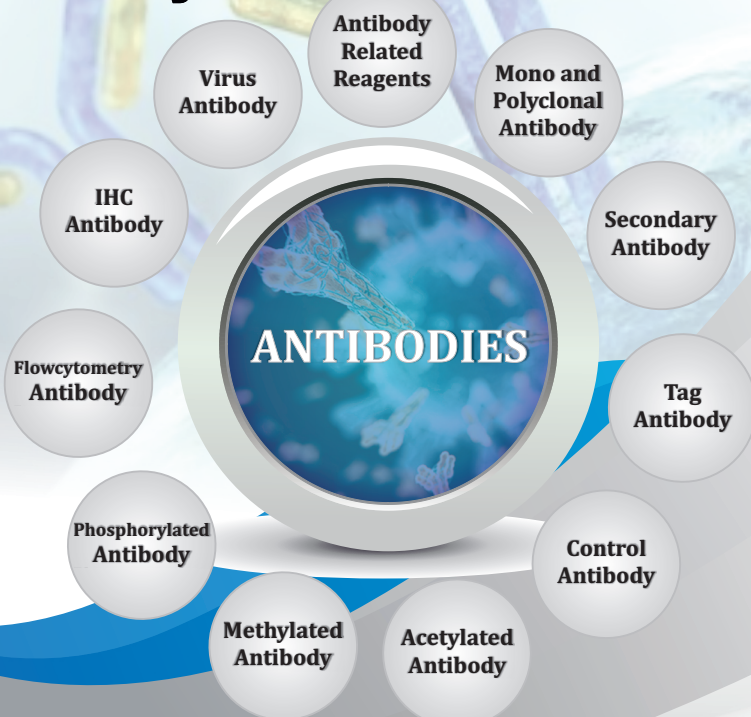

Why choose Elabscience Antibodies?

- Specialization: Specialize for Breast cancer, Liver cancer and Kidney injury.
- Variable categories: Monoclonal / Polyclonal / Tag & Control / Flow Cytometry / Acetyl / Phospho / Methyl Antibodies.
- Wide range of reactivity: Human, Mouse, Rat, Monkey, etc.
- Superior quality: High specificity and affinity, good consistency and stability.
- Detailed product parameters: All antibodies are with detailed information and authentic data to bring you comfortable experience during the whole process of ordering and experiments.
- Rich applications: WB/IHC/IF/IP/FC/ELISA, etc.
- Strict quality control: Standardized operation procedures and multiple validation to ensure product quality.

Format

20 μ L / 30 μ L /
60 μ L / 120 μ L /
200 μ L

Why choose Elabscience ELISA kits?

Rich Range of products

Elabscience offers 4000+ ready-to-use and fully validated ELISA kits for Various Species, Covering Human, Mouse, Rat, rabbit, Monkey, etc.

Ready-To-Use

Containing all of the reagents and consumables needed to perform an ELISA assay:

- Pre-coated 96-well Microplate • Standard • Wash Buffer • Stop Solution • Detailed Protocol
- Biotinylated Detection Antibody / Antigen • Optimized Assay and Calibrator Diluents
- Substrate Solution, Plate Sealers • HRP Conjugate

Various Target Selection

Elabscience ELISA kits have a wide range of applications in the following popular research areas:

- ▶ Cancer ▶ Cardiovascular ▶ Neuroscience ▶ Cell Biology ▶ Immunology ▶ Metabolism
- ▶ Microbiology ▶ Stem Cells ▶ Epigenetics and Nuclear Signal ▶ Developmental Biology
- ▶ Signal Transduction ▶ Tags and Cell Markers ▶ Cytokines

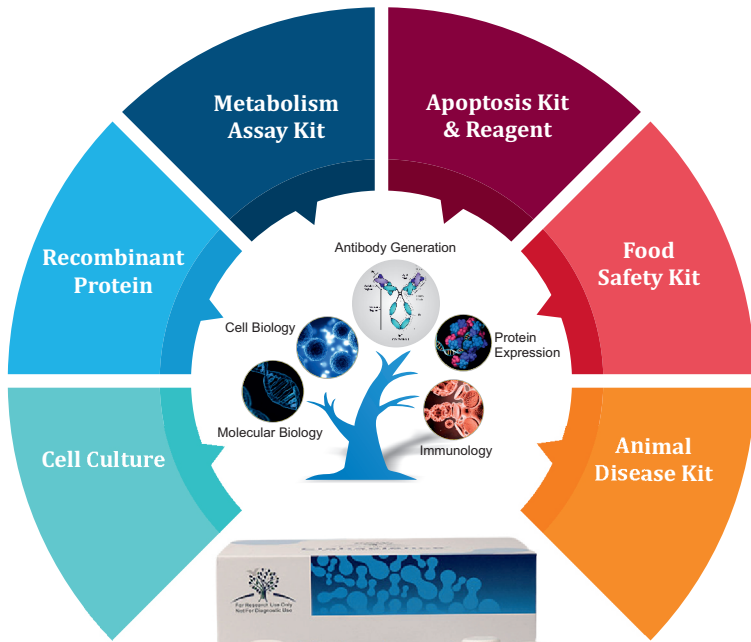

Publications

Elabscience ELISA kits have been cited by over 2000 publications in the past 3 years, including Nature Medicine, Circulation, Cell Research, Gastroenterology, etc.

Format

96T / 48T / 24 T

Our Brands

Point-of-care testing (POCT) devices, In-vitro diagnostic kits and reagents for wide variety of applications including Real Time PCR, Lateral Flow, ELISA and Biochemistry

Comprehensive portfolio of Kits, Reagents, Chemicals and Instruments for Molecular Biology, Biotechnology, Diagnostics and all fields of Life Science Research.

A wide range of kits and reagents for Extraction of DNA, RNA and Protein with both Manual and Automation Methods ensuring consistent and reproducible results

MANUFACTURED BY:
JITM C Genes Pvt. Ltd
 H-209, 1st Floor, Sector 63,
