SYMBOLS

EM-FR	Electromagnetic Force Restoration: Coil in a perman-ent magnet or Monolithic block for the most accurate weighings.	
GRAPHIC	Graphic Display: Text/graphical LCD dot matrix display with back light.	
IN - CAL	Internal Calibration: Automatic Calibration with in-built weight with time and Temperature adjust.	
CLOCK	Date & Time: Balance shows current date and time.	
RS-232	Rs232 Data Interface: To connect the balance to printer, PC, peripheral devices.	
UNITS	Measuring Units: Select the measuring unit that balance will use to display weight.	
% WEIGH	Percentual Weighing: Calculates the weight of a sample as a percentage from a reference (100%).	
DENSITY	Density Determination: Accurately determines density of a solid object or a liquid.	
	Totalisation: Balance has internal accumulator or can be used with optional external accumulator.	
ANIMAL	Animal Weighing: Accurate readings under unstable conditions such moving laboratory animals.	
GLP	Glp Setup: Allows storing identification data of balance, project and user. Date and Time.	
LIMITS	Checkweighing: Upper and lower limits can be set individually, for dosing and portioning.	
BATTERY	Battery Operating: Balance can work using batteries.	

LC-HR	High Resolution Load Cell: Strain gauge measure the deformation as change in electrical resistance.
	LCD Display: Standard segment digit LCD display with backlight.
EX-CAL	External Calibration: Calibration with the external mass.
STAT	Statistics: Shows Min, Max, Sum, Standard deviation, Average.
	USB: To connect the balance to printer, PC, peripheral devices such as PenDrive.
PCS	Piececounting: Function to count identical items, reference quantities are selectable.
ADD	Totalization: Measure cumulative weight of multiple items. Shows total and current weight.
UNDER	Under Hook Weighing: A support with hook can be loaded on the underside of the balance.
RECIPE	Formulation: Allows setting recipes with name and tolerances for each ingredient.
MODES	Drying Modes: Different temperature profiles are available for drying process.
DATABASE	Database: internal database to store data and drying methods.
PEAK	Max Load Peak hold: Retains the peak value in a series of consecutive weights.
PASSWORD	Password: User profile can be password protected.

SRB-DR SERIES

Features

- The New SAB series represents a new standard level for analytical balances. They feature a new, readable LCD display a clearer presentation of the weighing result.
- Besides, the display has a new text information line allowing to show additional messages and data, e.g. product name or tare value.
- Automatic internal adjustment, * which takes into consideration temperature changes and time flow.
- Several communication interfaces: 2 x RS 232, type A USB, type B USB and optional WiFi.
- The Informrmation system is based on 5 databases:
 - up to 10 users,
 - up to 1000 products,
 - up to 1000 weighments,
 - up to 10 tares,
 - ALIBI memory up to 100 000 weighments.

SEMI-MICRO ANALYTICAL BALANCE

MODEL	CAPACITY (gm)	RESOLUTION (mg)	PAN (mm)	REPEATABILITY (mg)	LINEARITY (mg)	RESPONSE TIME (Sec.)		
Auto Internal Calibration								
SAB 265DR	60 / 220	0.01/0.1	⊗ 80	<u>+</u> 0.03/0.1	<u>+</u> 0.07/0.2	5~8		
SAB 285DR	80 / 220	0.01/.0.1	⊗ 80	<u>+</u> 0.05/0.1	<u>+</u> 0.07/0.2	5~8		
SAB 205DR	100/220	0.01/0.1	⊗ 80	<u>+</u> 0.08/0.1	<u>+</u> 0.07/0.2	5~8		
SAB 414S	410	0.1	⊗ 80	<u>+</u> 0.02	<u>+</u> 0.4	5~8		

* Repeatability is expressed as a standard deviation from 10 weighing cycles.

* Non-condensing conditions.

SAB CLASSIC IIN-CAL

Features

The New Price & Best in Performance Class Analytical Balance.

- Built-in motorized calibration weight, ensures the highest accuracy at the press of a key.
- Support: Weighing, Counting, Percentage, Animal Weighing.
 Optional: Density Determination
- * 18 standard units, with all-character mark.
- * Strong anti-shaking monolithic electromagnetic for highest accuracy.
- Standard 1500V isolation USB port, ease to connect with PC.
- User selectable filter, stability indicator and auto-zero tracking for use in difficult environment.
- Large, sturdy and nearly frameless, all-glass draft shield chamber for optimal viewing of weighing chamber.
- Backlit, high-contrast display with 15 mm digits; exceptionally easy to read under any room lighting conditions.

- Backlit, high-contrast display with 15 mm digits; exceptionally easy to read under any room lighting conditions.

SCALETEC MECHATRONICS PVT. LTD.

ALIY SERIES

Features

- Complete automatic time & temperature calibration with GMP-GLP record print out.
- Brilliant backlit high resolution graphics display with simple navigation windows and menus allows for balance operation easy and quick.
- User selectable filter, stability indicator and auto-zero tracking for use in difficult environment.
- Procell software allows for direct transfer of weighing results to excel spreadsheet.
- Weigh below hook for below balance weighing with in-built density application software.
- With a die-cast metal housing and stainless steel pan, and balance is built to withstand rugged every day Weighing.
- Application : Parts Counting, Animal Weighing, Check-Weighing, Display Hold, Percent Weighing, Totalizing, SQC Quality Control, Filling, Density.
- OPTION : ALIBI Memory.
 Upto 5 Users
 - Upto 100 Products
 - Upto 10000 Weighments

CWS-10 PLU	10	0.1	335 x 220
CWS-15 PLU	15	0.2	335 x 220
CWS-30 PLU	30	0.5	335 x 220

- * 3 LCD Display with Backlight for Weight, Unit Weight & Total Quantity.
- * Check Weighing with Automatic quantity alarming.
- * In built re-chargeable battery and design easy to replace it.
- ★ Hi-Low limits on quantity.
- * Optional RS232 Standard Interface for data output.

TOP LORDING SCRLE

Features

- Easily perform the following:
 Net-Gross Formula
 - Piece Counting Function
 - M+ & Memory recall Function
 - Weighing Mode: Liter / gm / Kg.
 - Peak-Hold Function
 - Hi-Low for check weighing
- High Internal Resolution up to 200,000 counts.
- Optional Rear / Pole Display available for back view.
- * In-built re-chargeable battery for continue use.
- Easy to view 0.56" LED Display RED/GREEN option.
- * Environmentally protected load cells.
- * Stainless Steel Platter.
- * Optional RS232 / USB/ Printer Interface.

SCALETEC MECHATRONICS PVT. LTD.

PLATFORM SCALE

Features

- Easily perform the following:
 Net-Gross Formula
 - Piece Counting Function
 - -M+ & Memory recall Function
 - Weighing Mode:
 - Liter/gm./Kg.
 - Peak-Hold Function
 - Hi-Low for check weighing
- 0.8" SEGMENT LED Display for easy view.
- * Optional RS232 Interface for connecting Serial Printer or PC.
- Customize Platform Size, design, MOC (Stainless Steel / Mild Steel) Capacity & Functions are available on request.
- Equipped Rust proof, Weather Proof Loadcells for accurate results in any weather.
- Option : Weighing Controller with RS485 Modbus, Hi-Low Relay, Analogue Output - 4~20mA, Inbuilt Printer with Real Time Clock and many more options available on request.

Features

- * STP D3 / D5 provides further application.
- Pipette calibration
 Calibrate capacity of pipette and ask
- * User-defined calculation operator can set coefficients (handy for converting result to local unit)
- Tare/Net/Gross weight printing Print out Tare/Net/Gross weight separately
- * SUM mode Print out the total values of samples
- * Averaging mode Print out the average of samples
- Formulation mode
 Print out each sample's weight independently when blending samples
- * Comparator mode Print out result whether weight of sample is within target range
- * Interval printing mode Print out current weight at a regular interval
- * Support to: SCALETEC / AXIS / A&D METTLER /SARTORIUS SHIMADZU / RADWAG etc.

SCALETEC MECHATRONICS PVT. LTD.

STE SERIES

- 5 Digit 30mm LED display visual< 25 * meters.
- Switch on/off the scale automatically * displays the charge voltage of Battery.
- RF-Remote for easy operation.
- Two Re-Chargable Batteries for continues use one by one.
- The Main board design low energy consumption and prolong the using time.
- The unique only charging protection, * prevent over-current, overcharge, the battery service life is stronger, more durable.
- Alarm overload, low voltage, the * voltage is less than 5.5v when prompted.

INDUSTRIAL CRANE SCALE

STC 15T ~ 50T

STC 3T ~ 10T

MODEL	CAPACITY (M.T.)	RESOLUTION (Kg)	REPEATABILITY (Kg)	DISPLAY	MOC
STC 500k	0.5	0.1	0.2	LCD	ABS PLASTIC

* Distance between Hook and Heated area

1.5 meter ~ 1200 $^{\circ}$ C / 2 meter ~ 1800 $^{\circ}$ C temperature.

Optional Accessories

Wirelss Display

Wireless Indicator

Features

- Unique load cell design for thermal scale guarantee the accuracy of scale using under the high ambient temperature.
- * Special equipped Heat Isolation plate for thermal radiation.
- Heat protection board in the scale to stop the heat penetration.
- Resistant all steel construction for RFI protection.
- Hend-Held Type or Desktop with Printer Type Indicators
- Radio data transmission > 100m (when unobstructed).
- Power supply: Nd -H rechargeable battery (6V/4Ah) for indicator and highcapacity
- Memory stores us to 2900 weight data set
- * Optional Desktop Printer Indicator with Date & Time and Accumulation with Serial Number Print facility.

SCALETEC MECHATRONICS PVT. LTD.

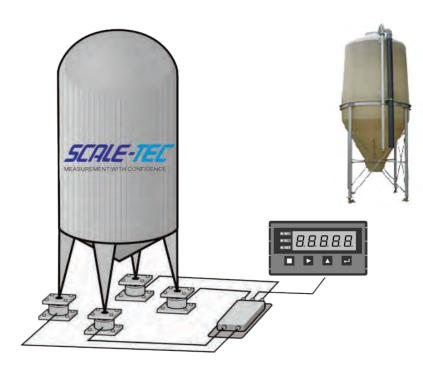

STW SYSTEM

Features

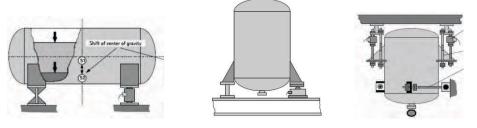

- Our Tank Weighing Systems are designed for weighing amount of liquid or solid material filled into or discharged from industrial tanks, silos, bunkers and mixers.
- These systems can be supplied with stainless steel and alloy steel load cells, available right from 100 kg to 500 ton capacities.
- We have the expertise to commission the systems for any type of applications such as normal, hygienic, high temperature, hazardous, corrosive, etc.
- Our unique concept of using pad plates ensures quick and accurate installation of load cells.
- The general idea of tank weighing is to place load cells under each foot of the tank/hopper/vessel, then connects the load cells to a weighing controller through a junction box which is used to compensate the signal difference of the load cells. The weighing controller is able to display the weight value after the system is calibrated, the indicator is equipped with relays output, 0-5V/0-10V/4-20mA analog output and communication port for automation control purpose.

INDUSTRIAL TANK WEIGHING SYSTEM

Different Type of Structural Design

WEIGHING RANGE	100kg to 100 MT
Resolution	1 / 10,000
Number of Load cells	3 / 4 / 6 / 8 (as per silo design)
Weighing Controller	Panel Mount / Wall Mount / Flame Proof
Power Supply	0-220V AC ~ 24VDC
Communication	RS 232 / RS 485 Modbus / 4~20mA Analogue
Temperature Range	-5 oC to 50 oC

3/10-11, Dev Industrial Esate, B/H Gorwa BIDC, Nr. Water Tank, Gorwa, Vadodara 390016, India. Tel: +91-265-2291527 Fax: +91-265-2311 842 Email: sales@scale-tec.in Url: www.scale-tec.in

Weighing Controller for Different applcation

Batch Weighing • Filling Syste • Check Weigher • Multi Head Weigher

OPTIONAL ACCESSORIES

	Serial Printer with Statistics function model STAT: High-Speed dot matrix printer, ISO/GLP compliant Data Printout, Built in real-time clock, Support: Weighing, Statistical report, sum, mean and Formulation function. Editable title (header) & tail, Sample name, Batch number can be inputted and print. Admin password lock.
AUX. DISPLAY	Auxiliary Display : Display available from 0.56" to 3" different size with LCD / Red LED / Green LED option.
SOFTWARE	Communication Software for balances Complete kit to connect SCALETEC balances to a computer. It allows data collection, Statistics, creation of graphs and export results to Excel file. The Kit includes: RS232 or USB converter cable, Weight Software for data collection and analysis.
DENSITY KIT	Density KIT Density KIT for density calculation of SOLIDS or LIQUIDS for SCALETEC & AXIS balances with resolution 0,1mg/0,001g/0,01g.
TEST WEIGHTS	Calibration Test Weights: Available in E1, E2, F1 & F2 Class as per OIML R60 standards in stainless steel in sets or individual.
MINDSHIELD	Windshield: Available for SCALETEC balance with 0,001 / 0.01 precision balances
CAL . THERMOMETER	Thermometer calibration KIT model PT-100 Small, fast-response thermometer for verify and calibrate the heating source of AXIS moisture Analyzers. A calibrated moisture analyzer's heater allows to have always accurate results. Essential for application where are required certified results.
